

# Single Jaw Splints

Powered by VSP®

Virtual Surgical Planning, integrating precision healthcare, with 3D technologies for enhanced patient care

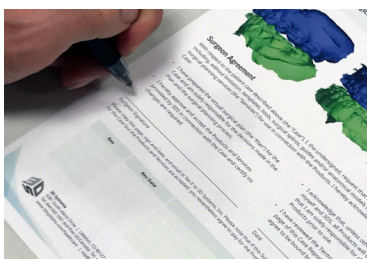

**Plan with confidence using 3D Systems' newest edition to our VSP portfolio, an on demand service for single jaw orthognathic cases.**

This new on demand service is an expedited and cost effective option for single jaw orthognathic cases, here's how it works.

## STEP 1

Submit occlusal records (traditional stone models or intraoral scans) and completed order form to 3D Systems

## STEP 2

Review and approve the final occlusion via case report or online webmeeting

## STEP 3

Final surgical splints are 3D printed and shipped for use in surgery
